Information Technology**
AN AUTONOMOUS BODY OF IT TRAINERS
| INTEGRITY | RELIABILITY | RESPONSIBILITY | PERFORMANCE |
CREATING ECONOMIC AND SOCIAL DIFFERENCE

Introduction ITSIT

Indian Trainers' Society in Information Technology- ITSIT is a dynamic platform dedicated to empowering and inspiring individuals to pursue rewarding careers as IT trainers. As a gateway for non-formal, non-accredited training and development in various IT domains, ITSIT caters to a diverse range of interests and passions. Our web-based platform brings together corporate IT trainers, IT skill trainers, affiliate businesses, affiliated training academies and institutional chapters, fostering collaboration and providing leadership to drive growth and excellence in IT-based business establishments.

ITSIT's prime objective is to offer opportunities for youth to explore and develop their careers as IT skill trainers after completing their formal education. With a focus on practical IT skills, ITSIT enables aspiring trainers to gain access to enriching training programs covering a wide spectrum of IT domains, emerging as future leaders in the information technology business world.

Founded in the early 1980s by passionate visionaries from diverse backgrounds, including retired defense personnel, sports professionals, and trauma center surgeons, ITSIT has a unique blend of IT expertise and coaching skills. This blend instills resilience and determination in students, empowering them to excel in the face of challenges.

Throughout its history, ITSIT has played a crucial role in transforming lives and empowering individuals to pursue successful IT careers. Despite experiencing a phase of reevaluation, ITSIT is back stronger than ever, embracing self-reliance and continuous learning. By empowering individuals with technical skills and coaching, ITSIT paves a clear path in the complex world of IT careers, creating a brighter, more prosperous future for all. Join ITSIT today and be part of the IT training revolution as ambitious future leaders, where the possibilities for growth and success are boundless. Together, let us embrace the power of self-reliance and ignite a transformative journey in IT education.
